Dear Sir

In reply to the Decision on Petition mailed June 7, 2004, in which the Director dismissed Applicants' Petition filed November 21, 2003 under 37 C.F.R. § 1.78(a)(3), Applicants hereby renew the Petition and request that the Director grant the Petition in view of the following remarks.

In the Decision on Petition, the Director dismissed the Petition on the basis that the reference required by 35 U.S.C. 120 and 37 CFR 1.78(a)(2)(i) of the prior-filed application was not properly submitted. The Director acknowledged that Applicants submitted such a reference in an Amendment filed concurrently with the Petition, but stated that the Amendment is not acceptable because it improperly incorporates by reference the prior-filed application.

In reply, Applicants respectfully submit that the incorporation by reference accompanying the required reference to the prior-filed application is proper because the incorporation by reference was actually included in the specification as originally filed. In

particular, the specification as originally filed included an incorporation by reference of the prior-filed application, and purported to claim priority to the prior-filed nonprovisional application. However, the claim of priority did not properly include the required reference identifying the present application as a "Continuation-In-Part" of the prior-filed nonprovisional application.

Hence, by way of the Petition, Applicants seek to include the proper reference to the prior-filed nonprovisional application, while still maintaining the incorporation by reference made in the specification as originally filed. Applicants certainly agree with the Director that the addition of an incorporation by reference would ordinarily be improper after the filing of the application. In this present application, however, the incorporation by reference was made in the specification as originally filed, and is therefore believed to be proper.

In view of the foregoing remarks, Applicants respectfully submit that the reference to the prior-filed nonprovisional application in the first paragraph of the application, as presented in the Amendment filed November 21, 2003, including the incorporation by reference, is proper in this instance. Therefore, Applicants respectfully submit that the Petition as originally filed complies with the requirements of 37 CFR 1.78(a)(3), and requests that the Petition be granted.

If any aspect of this Renewed Petition is unclear, or if further discussion would be helpful to the Director's disposition of this Renewed Petition, the undersigned may be contacted by telephone at the convenience of the Director.

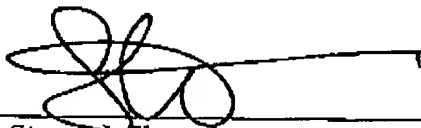

Please charge any necessary fees or credit any overpayment to deposit account number 50-1778.
